

Program Descriptions

Power Skate

The most important skill of the game is skating. Skating is also the most under-developed skill. In this class players will be instructed and corrected on the proper technique to have the most efficient stride.

Skills

This program will combine skating, stick handling, shooting, passing, concepts, body contact and of course games. This class is for both beginners and the experienced. This class will go over many things that are missed in a large group day-to-day practice and will break down concepts to make a more well-rounded player.

****NEW** Small Games**

This program is a great new way for players to learn vital concepts through a creative and over the top fun environment. The goal of each game is explained to the players and then a variety of small area games will be played. This teaches heads up hockey, creativity, where to go with and without the puck and how to be a productive player everywhere on the ice.

***NEW* Dryland (Hockey)**

As a player excels, off ice training becomes very important to keep the athlete in shape and able to compete at their highest ability. This class will also help with all around strength for injury and concussion prevention. \$100 per 8 weeks, 2-45 minute sessions per week; one hockey & one conditioning.

Defensive Skills

This is a very detailed class that will teach skills and positioning that are imperative to a successful defenseman. There are many finite details that make a solid defenseman that are often overlooked or unknown. This class will help make smarter defenseman with great decision making ability.

Forward Skills

This class will teach explosive skills and positioning to put players in the best position to score. This class offers smart shooting and teaches the defensive side, which must happen before offense can even begin.

3 on 3

This program is played on half ice which encourages players to move the puck quickly, stickhandle and shoot in tight spaces. This is a great place to have fun and try new things.

Learn to Skate/Cubs on Ice

This 45 minute session offers all ages the chance to learn the basics of skating.

Cubs ages 2 1/2 and older through adults. If you have never been on skates or if you are a novice and want to learn the correct way to skate, this class is just for you!

Lots of FUN!!!

5 on 5

This program gives the players the opportunity to scrimmage in a controlled environment and in a game like situation. This is a great class to try new things and get creative.

Men's Elite

This program is determined by skill set and designed to help the dedicated athlete play with and against the best on the Peninsula to better their skill and knowledge of the game.

June/July 8 weeks

Thursdays 8:00 pm

Rusty Blades

This program is purely recreational for ages 18 and up. Designed for the beginning novice to the aging experienced player.

- June through September
- 4 team league with playoff
- \$2000/team (10 skaters = \$200/skater)
